*Reason for Allowance*

1. Regarding claim 21, the prior art fails to teach or suggest a method for correlating request packets and reply packets during network analysis, comprising the steps (e) if the packet includes a reply packet; (i) determining whether the reply packet includes the key, (ii) if the reply packet includes the key, retrieving the data associated with the request packet from the hash table utilizing the key, (iii) correlating the reply packet with the request packet associated with the data, and (iv) decoding the reply packet; (f) determining whether another packet exists in the capture file; and (g) repeating (a)-(f) if it is determined that another packet exists in the capture file, in combination with other limitations.

Regarding claims 22-27, the prior art fails to teach or suggest a computer-implemented method for correlating request packets and reply packets during network analysis, comprising (c) responsive to the packet including a reply packet: (i) if the reply packet includes the key, retrieving the data associated with the request packet utilizing the key as the index corresponding to the data, (ii) correlating the reply packet with the request packet associated with the data, and (iii) decoding the reply packet using at least in part the retrieved data associated with the request packet, in combination with other limitations, as specified in the independent claim 22.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
